

Social Outbreak™ Income Disclosure Statement

Very simply, the Social Outbreak™ Compensation Plan rewards you for selling our exciting digital advertising application and for sponsoring other participants who do the same. Although the opportunity is unlimited, individual results will vary depending on commitment levels and sales skills. Since Social Outbreak has recently launched, it lacks enough statistical data to prepare reliable income disclosures. The numbers below reflect **estimates** prepared by the company pending a more detailed survey to be conducted after its first year.

Based on industry standards and company projections, the average annual gross income for distributors is projected to be between **\$500 and \$3,000**. Some distributors will earn less while others will earn much, much more. We're excited about the Social Outbreak Compensation Plan and we're confident it will provide you a solid foundation to help you achieve your financial goals.

If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the Compensation Plan. These income projections should not be considered as guarantees or projections of your actual earnings or profits. Success with Social Outbreak occurs only from hard work, dedication, and leadership.
